

CALL FOR PAPERS

The International Workshop on Data Mining Applications in Industry & Government (DMApps 2013)

In conjunction with PAKDD 2013, Gold Coast, Australia, April 14-17, 2013

<http://dmapps2013.rdatamining.com>

The 2013 International Workshop on Data Mining Applications in Industry & Government (DMApps 2013) will provide a platform for industrial data mining practitioners to share knowledge and experience, and also provide a bridge between academia and industry for applying new advanced data mining techniques to industrial applications. The audience will be composed of industrial data mining practitioners, as well as academic researchers who are interested in designing algorithms to meet industrial needs. The workshop will foster the collaboration between academia and industry and speed-up the process for new techniques to transfer from academic research to industrial applications.

The workshop focuses on applications of data mining in real-world projects. Topics include, but not limited to data mining applications in:

- Finance
- Retail
- Insurance
- Telecommunications
- Crime & Homeland Security
- Stock Market
- Social Welfare
- Social Media
- Other Fields
- Medicine and Health
- Education
- Sports
- Transport
- Education
- Environment
- Manufacturing
- Government

"Research" and "Industry Case Studies" Tracks

The research track solicits long papers with a 12-page limit, covering research into real-world data mining applications in industry and government. The track on industry case studies invites short papers with a 4-page limit from managers and practitioners covering a challenging and informative issue in data mining. This includes what the issue was, how it was managed and what lessons were learned from the activity. All papers should be with 10pt font size, following the Springer LNCS/LNAI manuscript submission guidelines (<http://www.springer.de/comp/lncs/authors.html>). The submission due date is **January 6, 2013**.

Important Dates

Submission due: January 6, 2013
Notification to authors: January 31, 2013
Camera-ready due: February 15, 2013

Submission procedure

All papers must be submitted electronically in PDF format at <https://www.easychair.org/conferences/?conf=dmapps2013>. All submitted papers will be reviewed by 2 or 3 reviewers. Selected outstanding long papers presented at the workshop will be included in a LNCS/LNAI post Proceedings of PAKDD Workshops published by Springer.

Attendance

Submitting a paper to the workshop means that if the paper is accepted, at least one author should attend the workshop to present the paper.

Organising Committee

Workshop Chairs

Warwick Graco
Operational Analytics,
Australian Taxation Office
Warwick.Graco@ato.gov.au

Inna Kolyshkina
Chair of the South Australian Chapter
Australian Institute of Analytics Professionals
ikolyshkina@yahoo.com

Program Chairs

Yanchang Zhao
Department of Immigration & Citizenship,
Australia; and RDataMining.com
yanchang@rdatamining.com

Clifton Phua
Data Analytics Department,
Institute for Infocomm Research, Singapore
